## FROM THE **DIRECTOR'S DESK**

Dear Parent,  
Greetings!

At the outset, we would like to express our gratitude for the trust you have placed in UNISON. This is a Golden Age of Career Education, for Education is not just a preparation of exams, it is to prepare for life itself. At UNISON, the true aim of education is providing the value based knowledge that we impart to our students.

As a parent, you definitely want the best for child, and we are happy to be working with you to make sure that they are given true knowledge to face the challenges in their career. An important role UNISON plays towards this end is to link the depth and breadth of our energy and experience to the enthusiasm and intelligence of this generation of Achievers.

The talent and the energy which our students possess needs to be nurtured, shaped and channeled in the right direction. Our combined efforts would bring out not only the best in the career, but the best in their lives. In this way, we aim to support not only individuals but also the entire society from which we all benefit.

We wish you a very rewarding experience at Unison.

## ORIENTATION SESSIONS

An introduction of UNISON System to  
Parents & Students

Orientation Session is our first introduction to parents and students. The session aims to brief the parents about UNISON as a system, as a community, as a family, as an ultimate place where dreams are turned into reality. The conclusion of the session ensures that the parents are well aware of the UNISON System and their child has now reached in safe hands and would emerge as a winner in the race of life.

## CLASSROOM

Eager To Set Benchmarks,  
From First Bench To Last

The sessions in Classrooms begin with prayers which impart essential values and will to the students for making best use of their skill.

Our air – conditioned classrooms are enabled with world class Public Address System and we have added “ Online projector Coaching” in select subjects. Advanced teaching is done with the help of Multimedia and animations.

## MEDICAL VS ENGINEERING

Medicine is a highly sought-after career after Science and Biology. Medicine is an intensive and challenging profession where a student needs high levels of patience to excel. Not just medical students, but certified doctors need to have the right balance of calmness, passion and empathy to be respected.

A graduation in Medicine offers the following career paths:

- Post-graduate in medicine in the field of choice in India or higher studies abroad via USMLE or PLAB.
- An MBA to further work as a Hospital Management Professional, Healthcare Administration or General Management.
- Practice as a general physician
- Make a career in medical education
- Work as a mainstream doctor in private or government healthcare sector

Engineering is one of the most versatile degrees with its scope varying across domains. Engineers research, develop and solve issues of everyday life, and that makes it one of the most sought-after professions in the country and worldwide.

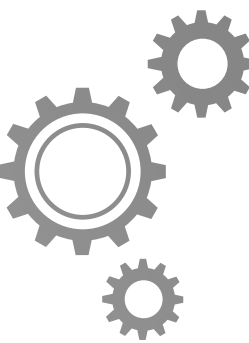

A graduation in engineering offers the following career paths:

- Masters in the technical field of choice after appearing in GATE for studying in India and GRE for studying overseas.
- Masters in Business Administration after appearing in CAT for studying in India and GMAT for studying overseas.
- Various government sector jobs such as Indian Engineering services, state engineering services, civil services etc.
- Become entrepreneurs by creating a company of their own

# COMPETITIVE EXAMS

## MEDICAL AND ENGINEERING

### NEET

NEET (National Eligibility cum Entrance test) is the single medical entrance exam in India which has replaced all the other national level and state level medical entrance examinations. Qualifying the examination paves way for admission to UG medical courses Viz. MBBS/BDS offered by government and private colleges.

NEET is conducted by NTA (from 2019 onwards) for admission to MBBS/BDS courses in medical/dental colleges run with approval from medical council of India/dental colleges of India under Union Ministry of Health and Family Welfare.

AIIMS & JIPMER entrance exam have been replaced by NEET.

NEET will be the single entrance exam to enroll candidates into MBBS program offered at 13 AIIMS in the country as confirmed by Health Minister Mr. Harsh Vardhan.

More information is available on <http://ntaneet.nic.in> and [mcc.nic.in](http://mcc.nic.in)

### JEE

JEE (Joint Entrance Examination) was introduced in 2013 as a common exam for all engineering aspirants in India.

JEE is divided into two parts – JEE (Main) and JEE (Advanced) . While all students appear in JEE (Main), Only the top 2.2 Lac students are selected to appear in JEE (Advanced) based on their performance.

From 2019 onwards, JEE (main) will be conducted by NTA in January and April every year and JEE (Advanced) will be conducted by IITs in May every year. Both exams will be conducted in online mode.

#### Important Changes:

No weightage for class 12 marks.

To qualify, candidates must secure at least 75% in class 12 or be in the top 20 percentile in the class 12 exam conducted by their respective board.

For SC / ST students, the qualification score is at least 65%.

### BITSTAT

BITSTAT ( Birla Institute of Technology And Science Admission Test ) is a computer-based online test for providing admission to Integrated First Degree programs offered at BITS Pilani campuses in Pilani, Goa and Hyderabad.

The online application process generally starts in mid- December and goes on till February. The exam is conducted in May, via online mode only.

"Loudly I heard the name... Keeping my passion of studies here I came. Don't stress... Do your Best... Forget the rest" were the three things that were in my mind when I joined Unison in 2014. Unison has helped me to develop a right attitude towards my studies and discover more about myself. I was delighted with the personal attention the staff gave to me. The dedication, support and motivation of each of the staff member is remarkable and enabled me to achieve my dreams. The staff was friendly, approachable and always helped me. The atmosphere of unison always filled me with the positive energy and enthusiasm. "I have had a wonderful experience with the whole staff. Coming here and achieving your dreams is not a tough task" A lot of Thanks to unison team from the core of my heart.

# TO SAY ABOUT UNISON

It was very fortunate for me to Join Unison Institute as I got the vision I required right from the beginning. It gave the vision for how to prepare for the exams right from the start till the end. Unison is extremely helpful for preparation of AIPMT and AIIMS. All the teachers are very good in their respective subjects and I want to thank all of them for their support. The commitment of faculty towards the students, taking care about the neglected students and pushing the students to go more and further was the best thing about Unison Institute. Daily assignments, tests, doubt discussions followed by Grand Tests prepared me for the real test. I am extremely grateful to the entire team of UNISON for their excellent guidance and brilliant teaching which helps me to step up the ladder of success for bright future. I would always recommend my juniors to join Unison Institute. All the best!

The more I say about it....the less it is....My experience with the institute has been wonderful. It not only taught me how to clear entrance exams, but also about how to stay motivated throughout the long journey of two years. The study material is well organized and reduce half of your efforts. Teaching is more concept oriented, doesn't mean they skip the application part. Teachers guided my regularly, motivated me, and provided my constructive feedback on a regular basis. They are friendly enough to understand your personal problems too. The grand test series...that's awesome...it's really an excellent way to evaluate yourself and keep yourself focused too. I could still remember Jatin Sir used to conduct inspiring and motivational talks too quite often for us. The institute has done its 100% to help me achieve my dreams and helping me become what i am today. I heartily thank all the teachers for their faith in me and their cooperation too. Thanks a lot for everything.

Hello friends, my name is Ritika, I Joined Unison institute in 2013. It has been a pleasure spending my 4 years here which has a major contribution in my success. Faculties have catered to my request on medical entrance related topics along with NTSE, KVPY and Olympiads. They stressed on the importance of NCERT as well. Throughout my preparation, they stressed on concepts and deep application rather than memorization. Regular test series helped me in instilling confidence and made us aware of the current pattern and competition. The teachers at UNISON are the best that one could find. Their belief in me and their guidance helped me to crack the NEET exam. Doubt sessions allowed me to clear the most basic to the toughest queries. The open and cultural sessions also proved to be motivating and encouraging. The credit of my success goes to my parents and teachers at UNISON who have acted as my family for these 4 years.

Unison Institute provides you the best learning environment and I really mean what I say. A friendly and a positive atmosphere prevails here. Teachers have been quite supportive and kind. The extra study material which is provided in the form of assignments and daily practice problems have been very helpful in preparing for the exams. Apart from providing academic coaching, the staff has been a great emotional support too and left no stone unturned to boost up my confidence whenever I felt depressed. The test series conducted by the institute helps you to realize where you exactly lie and acted as a regular feedback system. The regular doubt sessions too helped in clearing the concepts on a regular basis. I will always be very thankful to the entire Unison team for its cooperation and guidance. At last I would simply say that there is a team effort behind every good result and Unison has proved to be a great team. Thanks UNISON

I am Dipali..., and I joined UNISON institute 4 years ago in class 9th as a foundation student and my journey has been tied to unison institute, the books, the teachers, or the classroom everything. Faculty at Unison is extremely caring and hardworking who makes it a point for every student to be equally interactive in the classroom session. The management system along with the test programs are a wholesome package for any aspirant looking to achieve his/her full potential. My 4 year journey has been hard but worth it and I would like to express my gratitude towards my family, my teachers and my friends for their love and support for me. I wish good luck to all the aspirants and recommend UNISON as the best coaching institute with the great platform to help the passionate students achieve their goals.

Every one of you has something you are good at. Every single one of you has something to offer and you have a responsibility towards yourself to discover what that is. Scoring a good rank in competitive exams is not an easy task. Throughout 11th and 12th number of tasks are to be taken care of. These two years are very crucial for your career building, so make the best out of it. First of all start enjoying your studies rather than considering it as a burden. Make proper schedule and follow it diligently. Be sincere and focus towards whatever you decide to do. You must set your goals on daily basis and do whatever it takes to achieve it. Avoid distractions through social media, get your fundamentals right and most importantly follow your mentors and teachers "blindly". Don't shy away or be afraid of asking for help when needed. You have to give your best shot. So I expect you get serious, put your best efforts in everything you do. I know you all can do it. Make us all proud.

Hello friends I joined UNISON institute in 2017 for 2 year classroom. The institute supported me a lot and I want to give credit to management who provided all the required facilities and to faculties of UNISON who were experts of their subjects. The study material given here is more than sufficient and based on CBSE and competitive exams. The tests conducted in unison provide a real inside environment as present. While giving medical entrance exams. Grand test and Fortnightly tests conducted in unison regularly clarified all the doubts related to the topic thoroughly. All this motivated me to secure better rank and improve myself after every test. Crash Course during the end helped me to evaluate myself while solving difficult and concept based questions. It also provided a very competitive environment around me. Most of my success is due to my parents and faculties of UNISON. I would suggest medical aspirants to join Unison for successful preparation for NEET and other entrance exams

## DEMERITS at CHD. / PKL.

Small batch size ( 30-40 student)
Individual attention
More time for self-study
Doubt clearance (1 hr before class)
Complete coverage of CBSE & Competitions - IIT
Batches continue till exams
Experienced & Qualified teachers from Chandigarh/Panchkula
Regular feedback to Parents (PTM)
Half fees compared to chandigarh

Large batch size (150 - 200 students)
Lack of individual attention
Less time for self-study.....
No doubts clearance.....
Cover partial syllabus without focusing on CBSE
Batch end in December
Illusionary concept of branded institutes & study material
No time for PTM & individual feedback
Fee structures are very high
